FRIDAY EVENING, JUNE 7.

THE PROGRESS OF TURKEY.—The report of the Grand Vizier to the Sultan on the situation of the Empire says that measures have been taken to improve the administration of justice and for the modification of judicial forms. The military forces comprise a reserve of 800,000 men, well equipped, with a due proportion of artillery. In the navy such considerable progress has been made that Turkey may now be regarded as a maritime power of the first class-The iron-clad fleet, inclusive of the vessels incourse of construction, consists of 17 large frigates, monitors and gunboats. Measures have been taken for the fortification of the frontiers. The machinery in the arsenals for the manufacture of war materials is in active course of construction, and is now in a condition to compete struction, and is now in a condition to compete with any European manufactories. The establishment capable of manufacturing annually 300 rifled caunons is nearly completed, and another manufactory for the construction of improved rifles has been commenced. Active steps are being taken to increase the government schools, and to offer every facility for education. The railway from Scutari to Ismid, will be completed at the end of August. Other lines of railways, navigation and communications are also in course of construction. Agriculture has received the special attention of the Government, and agricultural implements are admitted to the country free of duty. Nothing fresh is stated in the report relative to the financial situation of the Empire.
